

# I can:

Read lots to find out information and also because I enjoy reading!

Use a strategy I know if what I read doesn't make sense

Check as I read that what I am reading makes sense

Know what I like to read and know how to find those texts

Use comprehension strategies like summarising and inferring whenever I read

Choose a strategy to work out the words I'm not sure of

Interpret figurative language, work out the meaning of figures of speech and use visual language features

Talk about what I have read and explain the author's message

Read for long periods of time

Work out the meaning of new words by using what I know about prefixes/suffixes or by using a dictionary or thesaurus

Read any high frequency word straight away
