

Knowledge Overview Stage 5

1.

Read and write numbers up to 1000.

2.

Know how many tens and hundreds in a three digit number e.g. 456 has 45 tens.

3.

Count forwards and backwards by 1's, 10's and 100's up to 1000.

4.

Know 1, 10, 100, before and after a given number up to 1000.

5.

Order numbers up to 1000
e.g. 299, 801, 300, 911.

13.

Order fractions with the same denominator.

12.

Know words and symbols for $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{3}$, $\frac{1}{5}$, $\frac{1}{10}$ and for fractions greater than 1

6.

Instantly recall basic addition facts to 20 and subtraction facts from 10.

7.

Recall groupings within 100 e.g. 75 and 25.

8.

Recall multiples of 100 that add to 1000
e.g. $400+600$

9.

Round 2 or 3 digit whole numbers to the nearest 10 or 100.

10.

Skip count forwards and backwards in 2's, 3's, 5's, 10's up to 100.

11.

Know all the $2x$, $5x$, $10x$ multiplication and division facts.
